

JOBE WATERSPORTS

PRODUCT GUIDE 2020

3 years Warranty

★ ★ ★

THREE YEARS WARRANTY. REALLY.

We believe in our brand. For this reason, Jobe inflatables (towables and aero sup boards) come with 3 year warranty.

All you have to do is registering your product within

14 days after purchase online at

jobsports.com/happycustomers

GETS YOU ON THE WATER

Jobe is for everyone.

We are a community, a global movement, a family of real people, who are discovering the beauty of watersports. We create unforgettable #jobemoments for everyone since 1974.

No matter who you are, no matter your age or size, no matter your background. When you want to get on the water, you will fit in our family. We develop our products with the greatest care and highest quality materials, every day again and again. This is what “gets you on the water” means to us.

Join our family and share in our love for water sports.

DISCOVER WHY EVERYONE AROUND THE WORLD LOVES JOBE TOWABLES

Experts say it's the combination of our high production standards and the use of high quality materials.

We say it is because our towables are thoroughly tested and undergo multiple quality checks that all contribute to their high quality. Therefore we can guarantee the quality of our products and we back this up with a 3 year warranty on every towable! Just make sure to register your towable within 14 days after purchase on www.jobesports.com/happycustomers

NEOPRENE DECK PADS

for a comfortable ride
glued and stitched to the cover

BOSTON VALVE

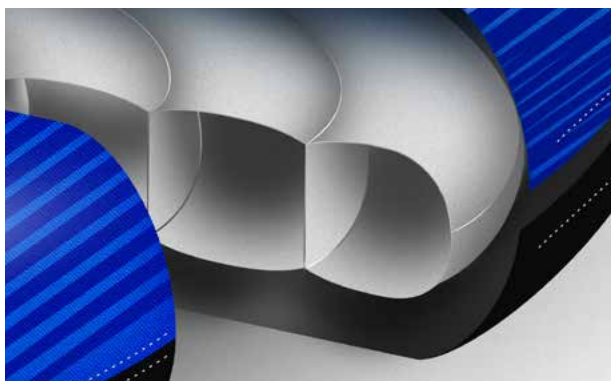

for quick
inflation and
deflation

NYLON COVER

Deniers vary from 420D for
a 1/2 person tube, 840D for
a 2/3 person tube and 1680D
for commercial used products.

PVC INNER

Gauges vary from 16G (kids tubes), 24G
(1/2/3 person tube), 30G (2/3/4 person
tube) and 34G for commercial products.

EXTRA SAFETY

Jobe towable tubes have extra durability and are extra safe because they consist of multiple air chambers. The combination with the Boston valve, which ensures air can only enter but not escape through the valve, makes Jobe towables a watersporter's favorite.

KEY FEATURES

- **DOUBLE-STITCHED NYLON** for extra durability.
- **COMFORTABLE HANDLES** with neoprene knuckle guards.
- **QUICK ROPE CONNECTOR.**
- **NEOPRENE DECK PADS** for comfort and prevention of damage on the skin.
- **3 YEAR WARRANTY** after registration within 14 days after purchase on www.jobesports.com/happycustomers

WHAT TO CHOOSE?!

Stand Up Paddling is the fastest growing water sport for a reason: everyone is able to find their inner explorer on a SUP board. Break away from work and turn to the water to relax and energize your spirit. The moment you step on your board you will find yourself in a completely different world. It doesn't matter where or when you go. Discover the Jobe SUP collection now. Jobe produces the best value and most advanced construction along with the most complete packages.

AERO SUP COLLECTION

When you don't live close to the water an inflatable paddle board is just way more convenient than a hardshell board like our bamboo and titan boards. Everything fits into one small waterproof backpack, which makes it easy to take it with you anywhere you go. Our inflatable boards are the lightest and stiffest on the market and..... we offer a 3 year warranty on all of our aero boards.

BAMBOO SUP COLLECTION

Our Bamboo boards are perfect when you live close to the water, or when you have a lot of storage place. A great benefit is that you don't have to inflate the board before you get on the water. Also, a bamboo board is slightly faster and more responsive than an inflatable paddle board. And last but not least, the bamboo finish looks really luxurious.

TITAN SUP COLLECTION

As strong as titanium: The Titan series is forged of elements resulting in an ultra-strong SUP board. They can handle heavy impact and have one of the highest levels of buoyancy due to a durable soft EPS core wrapped in a monocoque fiberglass layup. Blended together with the world's strongest polycarbonate shell - created with vacuum molding - the Titan is engineered to handle heavy impact.

WE BUILD THE FUTURE OF SUP

Jobe has more than 25 years of experience in water sports. The knowledge and experience we have gained over the years have created unimaginable synergies that allowed us to design the world's highest quality SUP boards, which are ready to perform. We don't let the past predict our future. That's why we are always continuing to do research about SUP. In that way we are sure we are able to develop better products and improve the sport for you.

AERO SUP BOARD HEAT BONDED TECHNOLOGY

Jobe inflatable Aero SUP boards are designed with your need to travel in mind. Our unique Heat Bonded Technology make our boards the lightest on the market. The pounds we save in glue and materials do not only make our boards more durable, but imagine the difference in weight it makes while you're in the outdoors scouting for that hidden lake to paddle. Obviously we've thought about your transportation too: all boards come in a waterproof backpack, so you can pack your gear and discover the world!

stand up paddling 62

KEY FEATURES

- **3 YEARS WARRANTY** after registration within 14 days after purchase on www.jobesports.com/happycustomers
- **HEAT BONDED TECHNOLOGY** stiff, lightweight and durable.
- **X-STITCHING** stronger, lighter and safer board.
- **INFLATABLE TO 20 PSI** for optimal stiffness.
- **COMPLETE PACKAGE** with everything you need to start paddling.
- **INTEGRATED RAILTAPE** to protect the sides of your board and extra airtightness.
- **STRINGER** for more stiffness and durability

3 YEAR WARRANTY

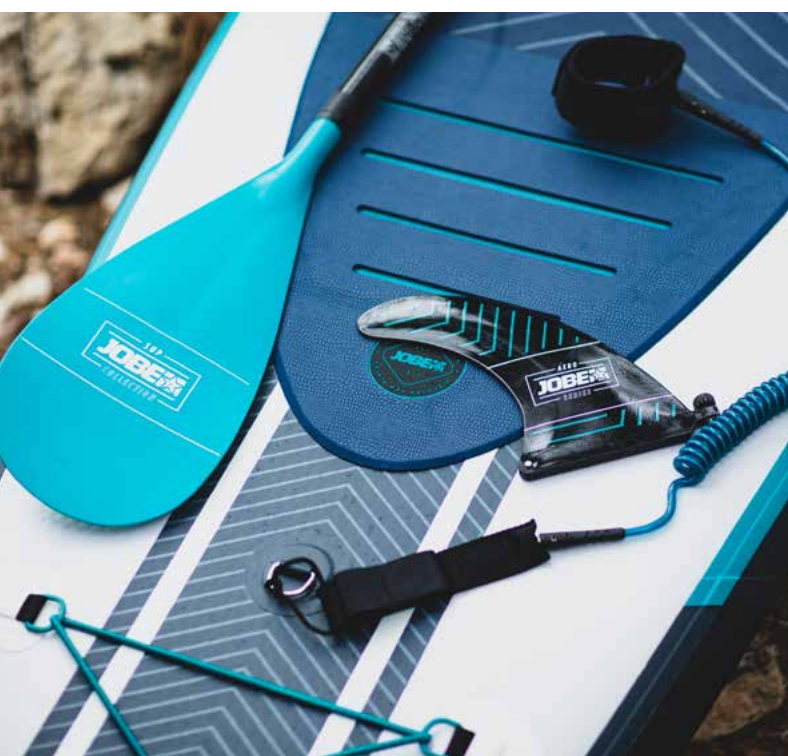

Jobe inflatable boards are the safest and most durable boards on the market. That is why we back up our claim with a 3 year warranty. Happy paddling!

Make sure you make a registration within 14 days after your purchase on www.jobesports.com/happycustomers to validate the 3 year warranty

3 years Warranty

★ ★ ★

THE CHOICE IS YOURS!

We offer complete SUP packages selected by our experts, which include a waterproof backpack, a fiberglass paddle, a double action pump, a leash, a fin & a repair kit. You're instantly ready to get on the water.

Or, create your own customized package by selecting the gear tailored to your needs and budget.

For example, upgrade your sup package with an electric pump or a carbon paddle. Or reduce expenses by not adding a waterproof sup back pack to your package. Customize it to your own likings!

YOU'VE GOT TO PUMP IT UP

We offer different pumps to fully inflate your aero SUP board. Depending on your budget you can go for the work out pump like the double action pump or choose for the laid back style and go for the electrical sup pumps. We love to make life easy!

BAMBOO SUP BOARD CONSTRUCTION AND INNOVATION

DIAMOND GROOVED EVA DECKPAD

Experience increased comfort on our bamboo beauties so you can focus on what really matters: discovering Mother Nature.

CHANNELS FOR EXTRA TRACTION

Channels are a great example of our synergizing experience in water sports. Being widely accepted in our other board sports, we are now the first company to incorporate this technique in our SUP boards. The result is a board that's made to perform!

CLICK & GO

Our bamboo beauties have unique click fins to make sure you are on the water in no-time. No tools and never worrying about losing your fin screw again.

KEY FEATURES

- **LIGHTWEIGHT** boards because of the lightweight EPS core
- **CHANNELS** more tracking on the water. Only on 10.6 and 11.6 Sup-boards.
- **REAL BAMBOO VENEER** blended with glassfiber means great looks
- **RAILSAVERS INCLUDED** to protect the edges of your board.
- **EVA FOAM DIAMOND SHAPE** for more grip and comfort.
- **CLICK FIN INCLUDED** no screws needed

PET VEST 122

PERFECT FIT

We have developed a unique sizing pattern for our vests, based on scientific research, where people of all sizes were measured in their chest and waist area and weight to determine new and updated average sizes.*

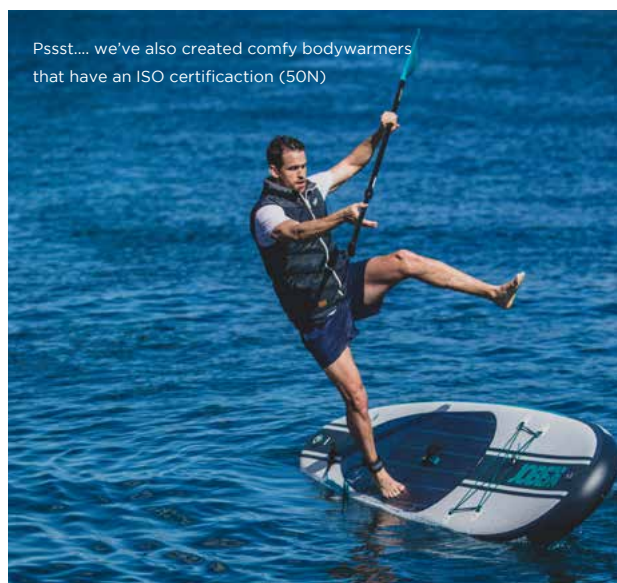

The result is an extended size range with a vest for everyone. Each size is designed with its optimal thickness of high quality foam: to always be safe on the water, and still comfortable on your body.

Technicians then extensively tested the buoyancy of every new Jobe vest. The vests passed their tests and they granted a Jobe-exclusive ISO safety certificate. **

Jobe Vests are for everybody and every watersport. Don't settle for less.

Find your perfect vest now; measure your chest and waist and find your size in the sizing table at the end of this catalog.

* Research conducted by TNO, 2015 ** Research conducted by a German certification institution - contact us for more information.

SAFETY FIRST!

All Jobe vests are certified buoyancy aid vests: they have a minimum buoyancy of 50(Newtons). Find it in our most flexible and comfortable vests like the new Fragment vest and the popular Unify vest, but also in our basic comfort vests like our nylon vests. Don't like the typical vest-look? Our new Newton bodywarmer is our first bodywarmer that also serves as buoyancy aid vest, but nobody will notice you're wearing a vest. We care for your safety, always and everywhere!

FOR EVERY TYPE OF WATERSPORT

All Jobe vests now contain a D-ring to attach your emergency cord. Safety first!

CHOOSE YOUR PERFECT VEST

Comfort & safety come together in Jobe's unique vest range.

How to choose? Choosing your perfect vest comes down to deciding for what purpose or watersport you want to use the vest and the corresponding level of comfort. Wakeboarding or slalom skiing demands a higher level of comfort and flexibility than laying on a tube. This corresponds to the amount of split foam panels on the vest.

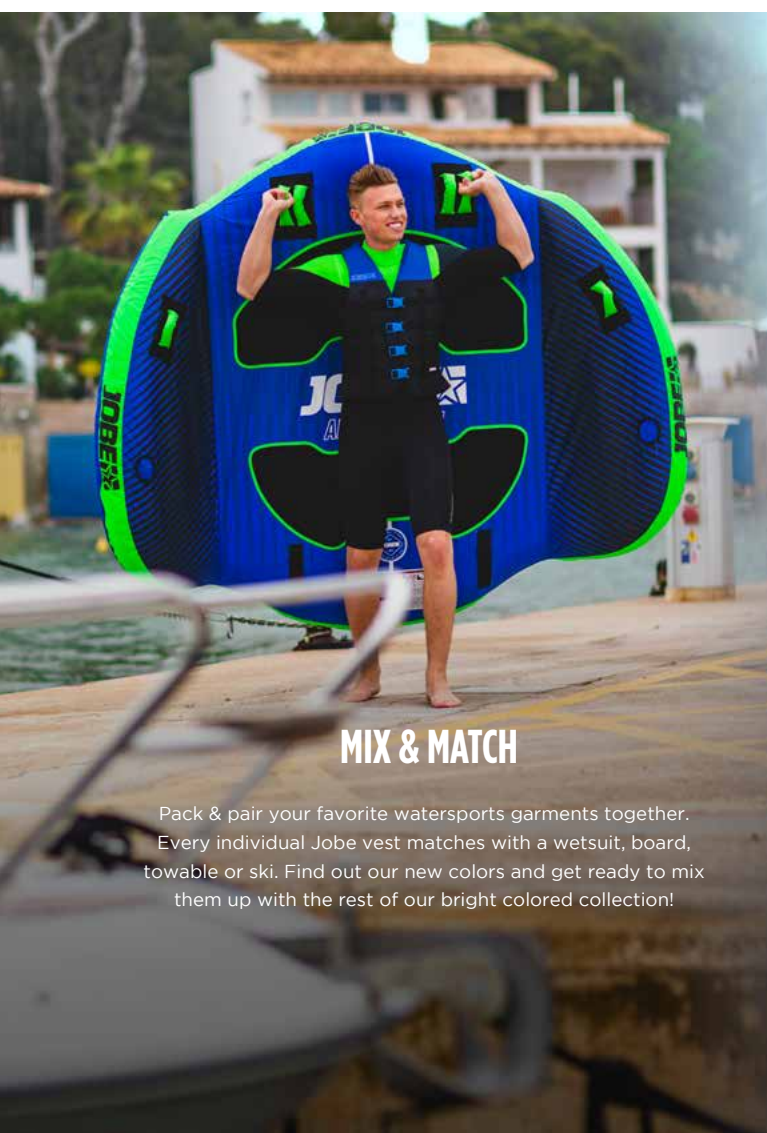

Rule-of-thumb: the more split foam panels, the more flexibility, comfort and freedom of movement your vest has.

All Jobe vests have a minimum of 50N buoyancy and are ISO-certified. We also have 100N vests that are officially ISO-certified. They have even more buoyancy!

NEW! THE JOBE FRAGMENT VEST

Our first ever comp-like vest with a 50N buoyancy! Supreme comfort with flexible materials combined with strategically cut foam panels that give your body complete freedom of movement. A vigorous vest to step up your game.

MIX & MATCH

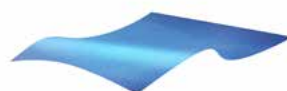

Pack & pair your favorite watersports garments together. Every individual Jobe vest matches with a wetsuit, board, towable or ski. Find out our new colors and get ready to mix them up with the rest of our bright colored collection!

D30 DETROIT

Years of experience in creating wetsuits have led to this revolutionary jetski wetsuit: the Jobe Detroit. It is the world's first wetsuit that is preshaped to your jetski stance. It offers the best aerodynamic support to your body to make sure you can keep riding. But that's not all: the Detroit is equipped with drainage - D3O panels on elbows, knees and shoulders reducing every kind of impact.

Be ruthless.

MIX & MATCH

This year's collection is carefully designed with fresh new colors, exciting new prints and bright details. Every individual Jobe wetsuit matches with a vest, board, tube or ski. Find out the new midnight blue, vintage teal and hot pink items and get ready to mix them up with the rest of our bright colored collection!

WHAT IS THE DIFFERENCE?

STITCHING TECHNIQUES

The stitching of the seams is an important determinant of the warmth and flexibility of the wetsuit. Flatlock stitching is most common and it is a super durable technique. Flatlock stitching perforates the neoprene which means water might still enter the wetsuit. Therefore we use the GBS technique in our high end wetsuits to give extra flexibility and that are meant to keep you warm. GBS stands for glued and blind stitched. The neoprene is first glued and afterwards it's stitched. The stitching is only down half through so it doesn't perforates the neoprene. Water does not enter the wetsuit that way and that is what you want in cold water temperatures.

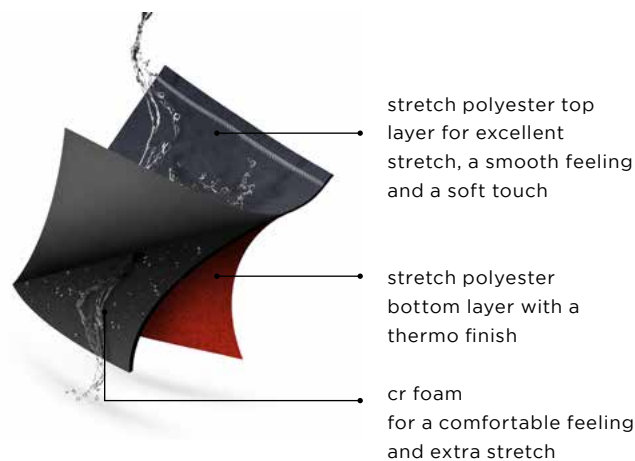

FILLED WITH FEATURES & TECHNIQUES

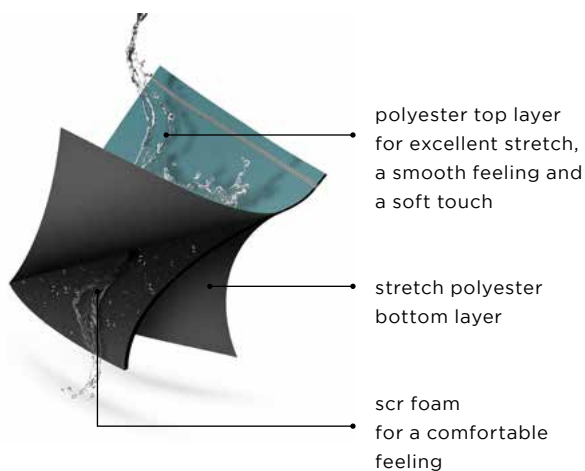

A wetsuit protects your body while on the water. Jobe wetsuits are produced from the highest quality neoprene. As a result, their overall level of stretch is much higher than normally used in a price point wetsuit. But it does not stop there: we also use techniques like drainage thermo inner lining to keep you warm. This technique quickly drains the cold water and makes sure you keep your body heat. Did we already mention we use tape on the seams in the inside to prevent water entry and still create the best looks? Also we have strengthened the seams in our wetsuits, to ensure durability. Be amazed and discover our full wetsuit collection now!

WHAT WE'RE MADE OF

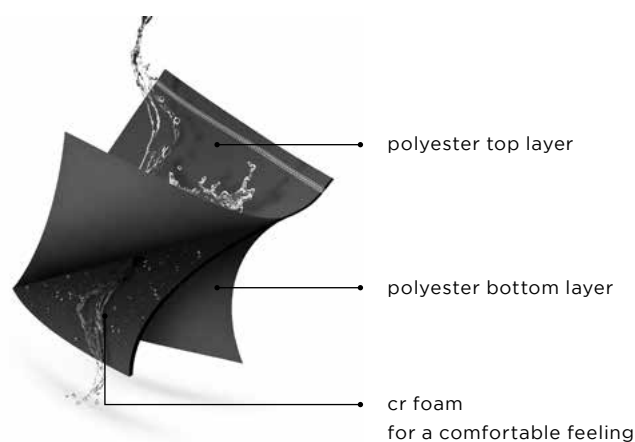

We demand only the best neoprene for our wetsuits. Neoprene is the most important determinant of stretch and because we believe you should comfortably perform water sports, Jobe wetsuits all have a good level of stretch. Enjoy the comfort and flexibility of how we incorporate stretch in our wetsuits.

SUPREME STRETCH

FULL STRETCH

REGULAR STRETCH

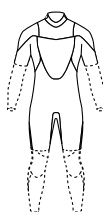

CHOOSE YOUR WETSUIT

Choosing your wetsuits is dependent on the water temperature and the type of water sports you want to perform. Wakeboarding or slalom skiing demands a higher level of stretch than laying on a tube. Therefore you want to look for the level of stretch in a wetsuit. Besides that, a chest zip gives more flexibility to the wetsuit, while a back zip means the wetsuit is easier to put on. Knowing the temperature of the water is very important. Colder temperatures require more high end wetsuits like our steamers that use a lot of techniques to keep you warm. Enjoying a tubing day in the summer? Then look for a shorty wetsuit instead.

CHOOSE YOUR WATERSKI

Choosing your ski depends on your skill level and consequently its maneuverability. Combo skis come as a pair and are great to learn the sport. Start with a pair to learn how to water ski and progress to a single ski to perform your first slalom sessions. Ready to advance? Increase your skills with a dedicated slalom ski. Tip: the wider the tip & tail, the easier the start. The narrower, the better the maneuverability. Select your performance ski now!

BEGINNER

INTERMEDIATE

ADVANCED

FIBERGLASS-CARBON COMPOSITE LAY UP

The Encore slalom ski uses a hybrid carbon/ fiberglass layup with a polyurethane core that enables this to be a consistent ski to ride, with a “flex pattern” within the tightest tolerances.

TOE STRAP

The extra molded overlay adds more durability which is usefull when you let go of your combo ski to continue slalom skiing.

GLOSSY TOP

A protective finish on top of the ski for extra durability and luxurious apearance.

ROGUE BINDING

The Rogue Binding is designed with performance in mind: The design characteristics providing the ultimate stability, comfort, and control that demanded from the professional - We have increased lateral support and provided a solid foundation for the heel and ankle through redesigned foot bed and cut lines. This allows the skier greater control and feel of the ski - Performance, comfort, and control.

A FAVORABLE PRICE QUALITY RATIO

Jobe's price-quality ratio becomes even more favorable when Jobe wakeboards are combined with Jobe bindings in a set. Jobe bindings fit on every wakeboard so you can endlessly combine to fit your expertise and style. The best thing, Jobe packages combining wakeboard and binding are our best price value!

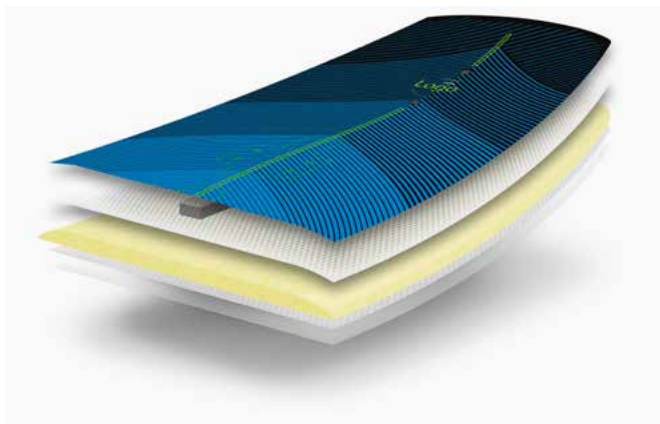

JOIN OUR FAMILY

No matter who you are, no matter your skill level or what your background, as long as you want to get on the water, you'll find the proper products from Jobe Sports. The Jobe wakeboard collection 2020 is carefully balanced and designed to be able to offer everyone the best time on the water.

WAKEBOARD TECHNOLOGY

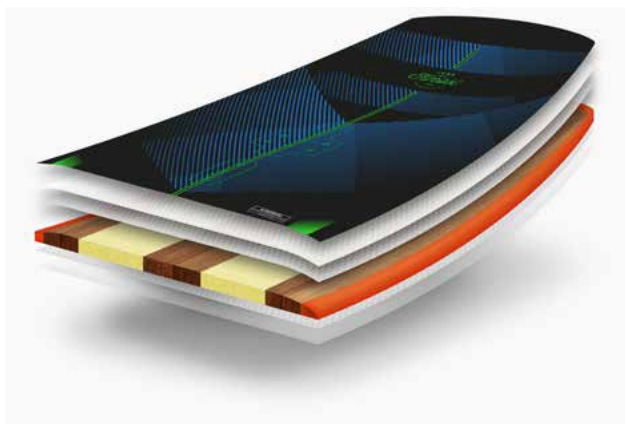

FOAM CORE

FUNCTIONAL AND RELIABLE

Used in: Maddox, Prolix, Vanity, Logo & Jinx

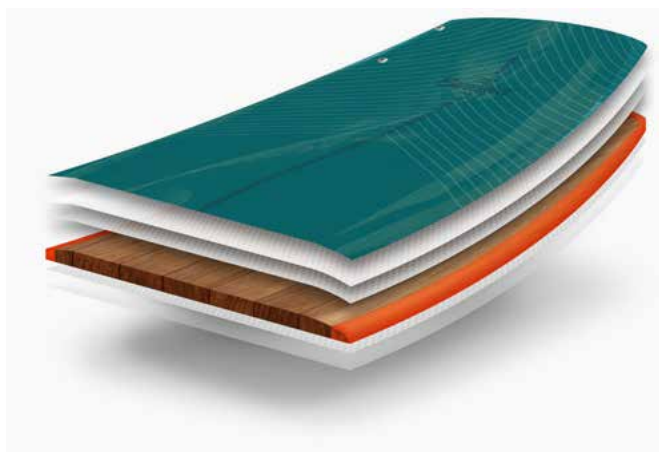

HYBRID CORE

THE ULTIMATE COMBINATION BETWEEN FLEX AND STRENGTH

Used in: Conflict, Breach and Knox

WOOD CORE

DURABLE AND FLEXIBLE

Used in: Reload and Concord

ROCKERS

THREE STAGE

Looking for aggressive pop and an easy lock? Three-stage is the way to go. A shape which gives a competitive edge to your board.

CONTINUOUS

This rocker is great for beginners. The shape gives you a relaxed feel and most speed on the water.

HYBRID

This rocker is the best of both worlds. It combines the speed of a continuous rocker with the aggressive pop of a three stage rocker.

KNOX

Rocker beams for center stiffness. Deep grooved channels for maximum traction and control. Triple concave tip and tail for extra traction and control.

BREACH

Deep grooved channels for maximum traction and control. Bottom design with extra surfaces for a more playful ride. Concaved tip and tail for traction and control during release. Narrow tip and tail for responsiveness and speed.

CONFLICT

Smooth grooved channels for moderate traction and control. Bottom design with extra surfaces for a playful ride.

CONCORD

Shallow grooved channels for moderate traction and control. Bottom design made with extra surfaces for a more playful ride. Concaved tip and tail for traction and control during release.

RELOAD

Shallow grooved channels for moderate traction and control. Bottom design made with extra surfaces for a more playful ride. Smooth channels in the tip and tail for extra traction and control.

MADDOX

Deep grooved channels for maximum traction and control. Wood veneer layer for stiffness and durability. Hybrid edge for extra durability.

PROLIX

Smooth grooved channels for moderate traction and control. Rolled edge for extra durability.

VANITY

Deep grooved channels for maximum traction and control. Molded fins for extra traction and control. Narrow tip and tail for responsiveness and speed.

LOGO SERIES

Double concave bottom design for smooth landings. Molded fins for extra traction and control.

WAKESURFERS & WAKESKATES

OUR RISING STARS.

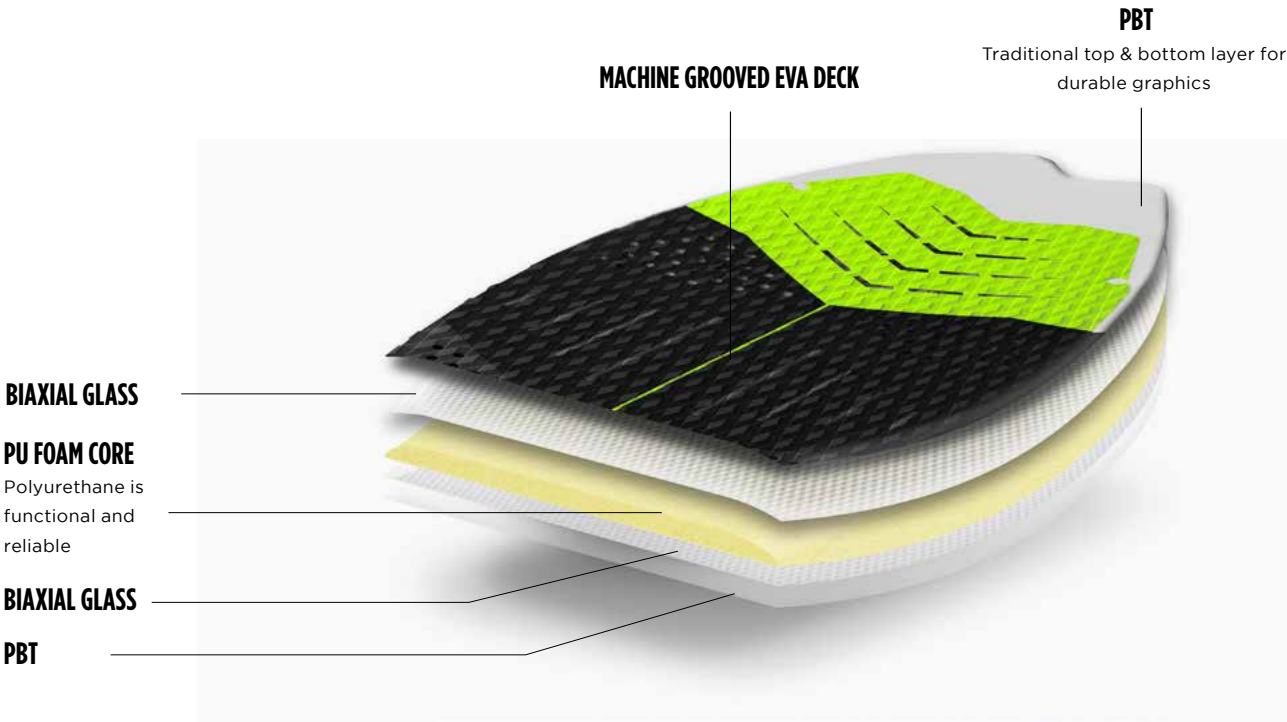

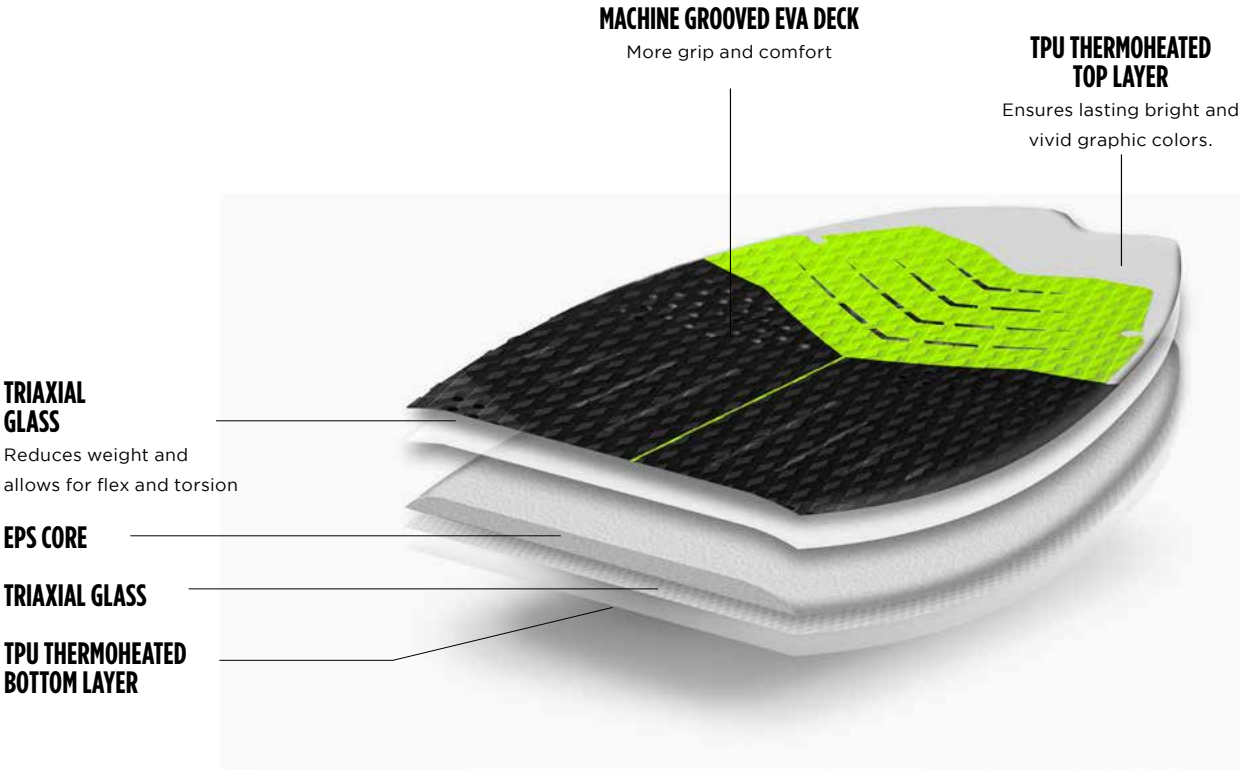

HOW TO CHOOSE 208

WAKESURFERS 210

WAKESKATES 213

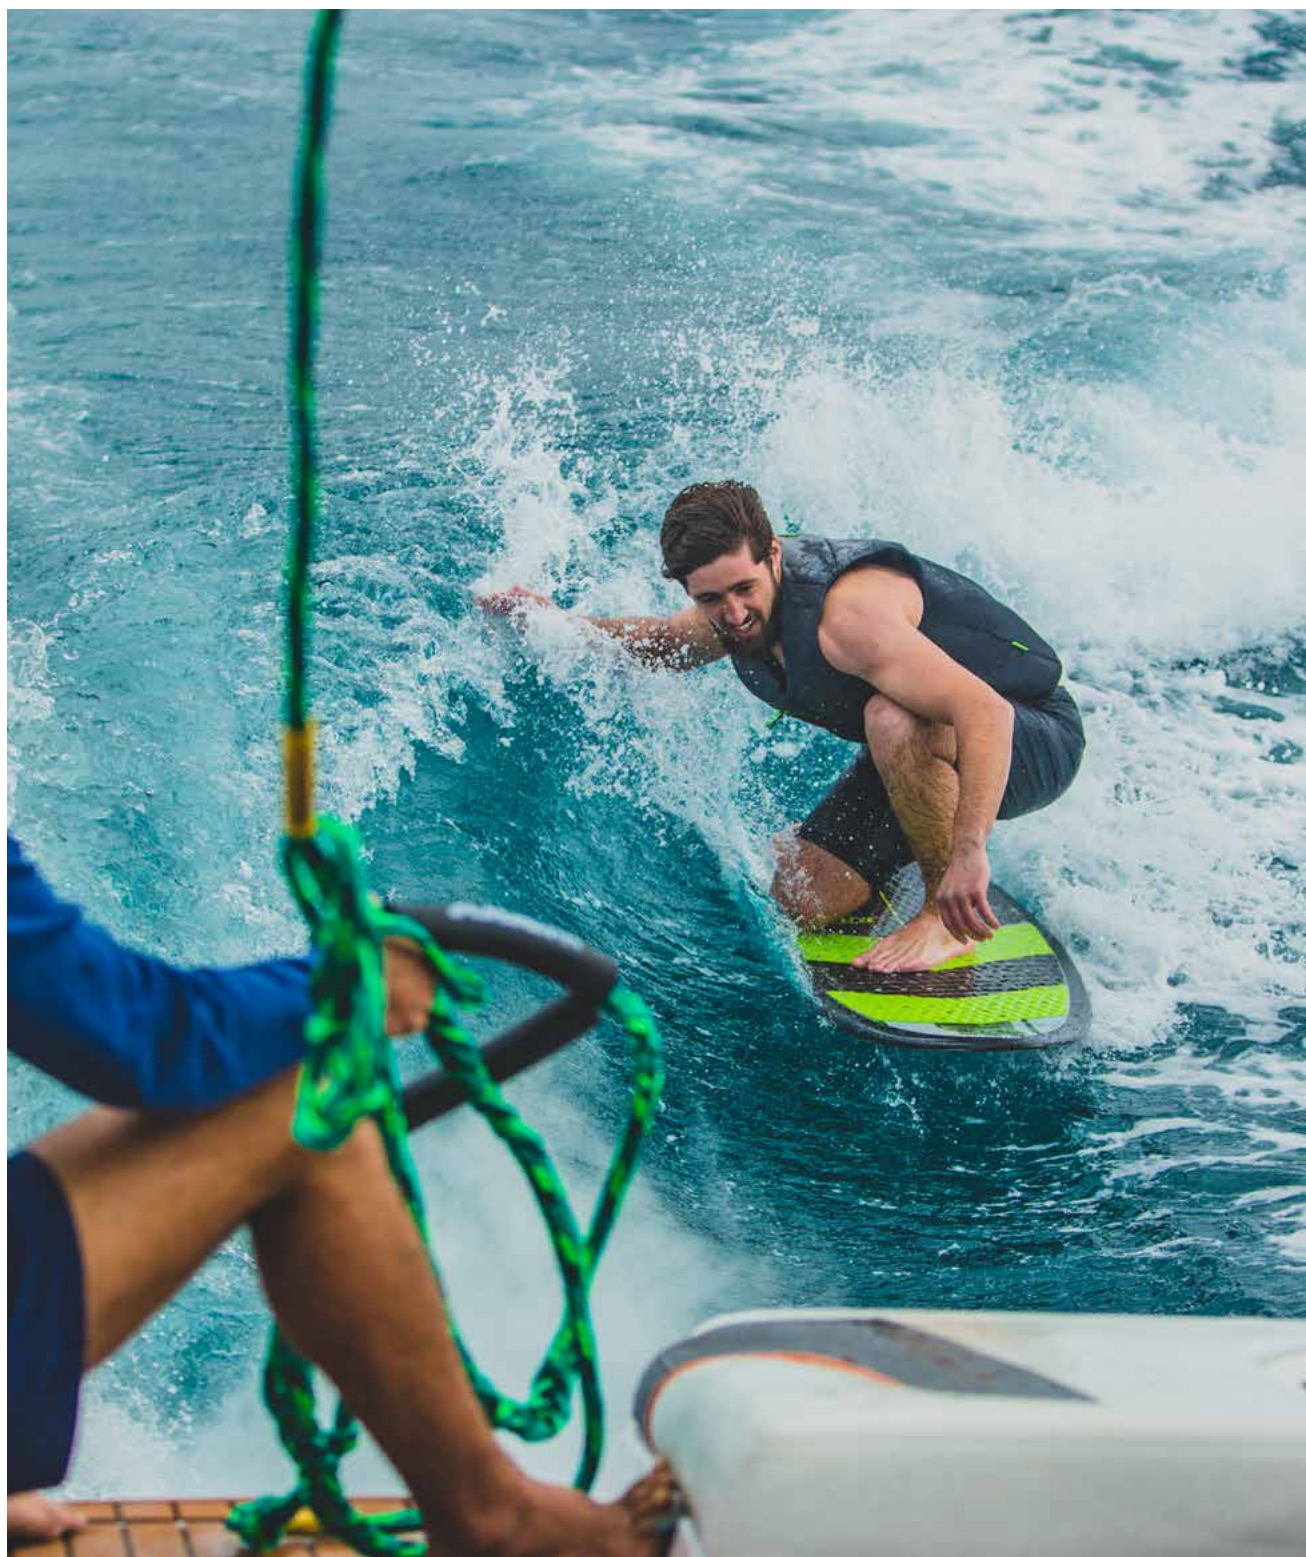

CHOOSE YOUR WAKESURFER

There's a wakesurfer for every style. If you want to go more skim style to perform some tricks, go for a responsive shorter board. Are you more into mainstream surfing? Then we got you covered too, look for a moderate larger responsive board. These boards are also great for family-use, be sure to pay attention to maximize user weight and ability.

TREND ALERT

Wakesurfing is the up and coming board sport for behind the boat. Everyone can do it, just make sure your boat is able to produce the right wake. Because it is so easy, it's a great activity for the entire family. Want to progress some more? We offer you a broad collection to make sure you can achieve your goals!
