

# Potent power. Reassuring reliability.

The F80 and F100 are amongst the most versatile and user-friendly outboards in this power sector. In fact, in terms of their sheer power-to-value ratio, they are very hard to beat.

Yamaha's latest 4-stroke technology means both models offer unmatched performance – thanks to a 16-valve engine with Double Overhead Camshaft (DOHC) for improved acceleration, advanced intake and exhaust system designs – and Yamaha's unique multi-point EFI (Electronic Fuel Injection)

A range of convenient features – including PrimeStart™, a highoutput alternator, Digital Network Gauges and Yamaha's Wide Range Power Trim & Tilt system – gives you the confidence that you're always in full control.

- ► EFI for cleanliness, efficiency and economy
- DOHC ( Double Overhead Camshaft) aids performance
- Yamaha's Customer Outboard Protection (Y-COP)
- Compatible with Yamaha Digital Network Gauges
- ▶ PrimeStart<sup>™</sup> system for easy starting
- Variable trolling RPM
- ▶ Wide Range Power Trim & Tilt
- New Tilt Limiter system (optional)
- Single-lever steering friction (Tiller models)
- ▶ High-output alternator
- Shallow Water Drive for cruising close inshore
- Fresh Water Flushing system

# Technology the world trusts

Whether you're a recreational boat owner or a busy professional, choose the engine that will help you get more out of your boat.

Every engine in the Yamaha range uses the very latest Yamaha marine technologies, engine layouts and ingenious intake and exhaust systems. Efficient performance is ensured by a system of microcomputer controls that precisely monitor the engine – from fuel mixture to combustion efficiency and maintenance scheduling.

And, without compromising on power, performance or usability, our specially designed marine engines also help preserve the environment through the use of pioneering clean-burn technologies.

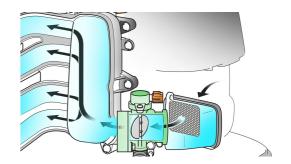

#### 16-valve DOHC engine layout

The DOHC (Double Overhead Camshaft) layout, with its increased cylinder capacity and large valves, results in optimum valve actuation, deliveringimproved acceleration and performance. Yamaha's latest 4-stroke technology combines this with advanced intake and exhaust system designs – and our unique multi-point Electronic Fuel Injection (EFI).

# Large single throttle valve

This innovative system controls the flow of air to all four cylinders, pulsetuning it before it reaches the injectors of the EFI system. The air is therefore delivered with ultimate precision, according to the demands of the driver and the combustion conditions.

#### Micro-computer ECM (Engine Control Module)

A reliable micro-computer is the 'brain' of your engine. By constantly monitoring all data inputs and settings, it helps to ensure smooth running and optimised ignition timings – as well as automatically activating warning and protection systems. A handy access port lets authorised Yamaha dealers easily diagnose any problems.

# **Digital Network Gauges**

The F80 and F100 are compatible with Yamaha's Digital Network Gauges, giving you the information needed to maximise engine performance and efficiency, including a Multifunction Tachometer with RPM, Hours Run, Trim Angle, Oil Pressure, Warning lamps and Variable RPM control – and a Speed/Fuel Management Gauge with Speed, Tank Capacity and Fuel Economy.

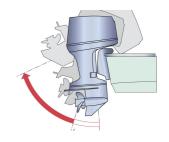

#### Yamaha Customer Outboard Protection (Y-COP)

The Y-COP immobiliser system is simple, easy to use and highly effective – a neat and simple remote control locks and unlocks the engine at the push of a button. This prevents your outboard engine being taken for any unauthorised joyrides, offering you peace of mind when leaving your boat unattended.

#### Wide Range Power Trim & Tilt

Discover the versatility and power of a Yamaha engine. Quick response, via pushbutton control, makes trim and tilt adjustments swift, smooth and easy. The confidence-giving handling control provided by the wide trim range includes negative trim settings to improve acceleration and help bring the boat onto the plane quickly.

Engine			
Engine type	4-stroke	4-stroke	
Displacement	1,596 cm <sup>3</sup>	1,596 cm <sup>3</sup>

### The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements.

Yamaha Marine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®. Yamalube® is our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you drive.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative boating gear. An extensive range of casual wear is also available. For more information go to:

www.yamaha-motor-acc.com
